Profile

Full-Stack Developer with a UX/UI background, building responsive, accessible web apps with React, Next.js, and TypeScript. Skilled in refactoring legacy code, optimizing performance, and ensuring reliability through testing and CI/CD.

Experience

2023 – Present

Fullstack Developer
Berlin, Germany

Freelancer

- Built scalable React/Next.js apps with responsive UIs, ensuring cross-browser compatibility and strong performance.
- Integrated REST APIs and automated tests, improving reliability and reducing deployment issues in production.

2023 – 2024

UI / UX Designer
Berlin, Germany

KARL STORZ

- Revamped the online catalog and checkout process with UX research and Figma prototyping, boosting engagement.
- Updated Salesforce email templates and landing pages for consistency and easier customization, enhancing branding.
- Redesigned and launched the website, aligning with the new design for improved engagement.

2019 – 2022

UI / Brand Designer
Berlin, Germany

Kyto

- Created a cohesive brand strategy for Kyto, a software as a service company, and new products.
- Created new visual identity, including marketing materials and UI for web and mobile apps, ensuring brand consistency.
- New branding, website, and mobile design boosted customer engagement, leading to Müller Medien acquisition.

Experience (Continued)

**Jun 2025 –
Sep 2025**

Frontend Developer
San Francisco, CA
(Remote)

Volter.ai

- Created reusable Next.js/TypeScript components, boosting scalability and user experience.
- Worked with product teams on debugging, testing, and optimization to maintain high standards.

**Mar 2025 –
Apr 2025**

Frontend Developer
Dubai, UAE
(Remote)

Moonopol

- Developed and styled the frontend of Moonopol, a blockchain-based prediction market platform using Next.js in close collaboration with a cross-functional dev team.
- Connected frontend components to backend services via RESTful APIs, implementing features such as a comment section on market detail pages and promotional banner management using NestJS and Prisma.
- Contributed to a modern DevOps workflow using GitHub Actions, Sentry, and Elastic, deploying to a K8s on-premise infrastructure alongside a Rust/Anchor smart contract stack.

**Dec 2024 –
Jul 2025**

Frontend Developer
Munich, Germany
(Remote)

Captain Frank Flight Funnel

- Engineered and designed a flight compensation platform using Next.js, TypeScript, and React, focusing on seamless user experience and efficient data handling.
- Implemented state management with Zustand to optimize performance and handle complex form interactions within the compensation claim process.
- Integrated HubSpot for CRM functionalities and utilized Netlify serverless functions to streamline backend operations and automate workflows

2024

FullStack Developer
Oakland, California
(Remote)

All7z Artist Website

- Developed and designed a TypeScript-based artist portfolio and e-commerce platform with Next.js, React, and server-side rendering, ensuring responsive design and dynamic content management via Sanity.io.
- Built reusable, customizable components to streamline client updates and provide a smooth user experience for showcasing artwork.
- Integrated Stripe for payments and APIs for reliable inventory management of art pieces.

2018

Product /
Brand Designer
Berlin, Germany
(Remote)

Smunch

- Designed a customer-centric product and brand strategy, resulting in a 156% increase in mobile sessions post-launch.
- Performed user research and crafted user flows to enhance navigation and overall user experience.
- Created prototypes and presented design proposals, effectively communicating complex design concepts to stakeholders.
