A: Berlin, DE

Profile

From Brooklyn to Berlin, my career blends NYC ad agency experience with a passion for Bauhaus-inspired design. I recently completed a full-stack web development bootcamp at CareerFoundry, where I built my own website. I aim to create seamless, user-focused experiences.

Experience

2023 – Present

Full Stack Developer

Freelance
Berlin, Germany

- Currently learning Next.js to expand my expertise in modern web development frameworks.
- Currently optimizing a client's website using Sanity.io to ensure responsiveness and make components easily editable.
- Building an e-commerce platform with Next.js, server-side rendering, and Sanity.io. Integrated Stripe for payments, API for inventory.

2023 – 2024

UI / UX Designer

KARL STORZ
Berlin, Germany

- Revamped the online catalog and checkout process with UX research and Figma prototyping, boosting engagement.
- Updated Salesforce email templates and landing pages for consistency and easier customization, enhancing branding.
- Redesigned and launched the website, aligning with the new design for improved engagement.

2019 – 2022

UI / Brand Designer

Kyto
Berlin, Germany

- Created a cohesive brand strategy for Kyto, a software as a service company, and new products.
- Created new visual identity, including marketing materials and UI for web and mobile apps, ensuring brand consistency.
- New branding, website, and mobile design boosted customer engagement, leading to Müller Medien acquisition.

Education

CareerFoundry

Full Stack Dev Certificate
Aug 2022 – Feb 2023

Fashion Institute of Technology

BFA in Graphic Design
Aug 2013 – May 2015
NY, NY

Projects

2024

Freelance

All7z Artist Website

- Developing a TypeScript-based artist portfolio and e-commerce platform with Next.js, React, and server-side rendering, ensuring responsive design and dynamic content management via Sanity.io.
- Built reusable, customizable components to streamline client updates and provide a smooth user experience for showcasing artwork.
- Integrated Stripe for payments and APIs for reliable inventory management of art pieces.

2023–2024

Personal Project

Personal Website

- Developed a responsive website using Vanilla JS, Alpine.js, and Tailwind CSS.
- Prioritized performance optimization, ensuring smooth loading and interactions.
- Designed with a mobile-first approach to enhance user experience across devices.

2023

Personal Project

Document Management App

- Developed a React and ASP.NET Core document management app with upload, preview, sharing, using PostgreSQL and Azure Blob Storage.
- Added secure authentication and responsive design for all devices.
- Deployed on Azure, including user guides for easy adoption.

2023

CareerFoundry

Meet App

- Developed a PWA in React to display events from Google Calendar.
- Applied TDD with Jest (unit), Cucumber (acceptance), and Puppeteer (E2E) tests based on user stories.
- Implemented serverless functions using AWS Lambda and used a Kanban board to follow an agile process.

2022

CareerFoundry

myFlix

- Created a non-relational movie database (MongoDB) and built a REST API with Node.JS and Express.
- Tested the API endpoints with Postman, wrote clean and concise documentation, deployed the API with Heroku.
- Designed and developed two single-page, responsive front-end applications using React and Angular.
